November 30, 2021

**Ambler School** is currently operating in the **Red High-Risk** operational zone until further notice due to the level of available water in the community which prevents the school from implementing required mitigation strategies (Factor 6. Other — see below).

**JNES, KMHS, Noatak, and Kiana** schools are currently operating in the **Red High-Risk** operational zone until further notice due to the level of case impact to the community and possible community transmission (Factors 1 & 2 — see below).

**All other schools** are currently operating in the **Green Low-Risk** operational zone.

**No schools** have had a student or staff member that was diagnosed with COVID after having attended school since our last report on 11/29/2021.

### To date, the NWABSD has had:

- 3 Possible classroom/school transmission (2 or more students/staff diagnosed w/ COVID)
- 6 Students/staff diagnosed with COVID upon return from out-of-region District sponsored travel

School risk operational zones are determined on an individual school basis in coordination with Maniilaq Health, local village leaders, and NWABSD Administration. Factors for changing risk operational zones include:

1. The level of case impact to the community,
2. The level of community transmission,
3. The level of community compliance to current mandates,
4. Vaccination coverage,
5. Availability of staff, and
6. Other.

See the chart below for risk level statuses by school:
