# Parent & Student Handbook

Northwest Arctic Borough School District is proud to enter into the third year of the 1:1 Laptop Initiative. This project lends a school owned laptop computer to every student in 9th-12th grade for school and home usage to expand and extend the educational process and to carry out and support the curriculum set forth by the school board. The impact on teach and learning has been enormous. This initiative has provided student with access to up-to-date information while simultaneously increasing their technology skills and workforce readiness.

In order to ensure success for our students, we want to be sure they understand that along with this great privilege comes great responsibilities. Since each student and family is responsible for the proper care of this equipment we are providing each family with a handbook which details how to keep their MacBooks in optimal condition.

This handbook is based on Northwest Arctic Borough School District policies. Student and families are responsible for upholding district policies and procedures governing the use of school equipment. No modifications to any software, hardware or any of the equipment or services is permitted without prior permission from a designated Northwest Arctic Borough School District representative.

This activity is illegal and may result in the loss of the laptop for everyone involved. Music stored on individual laptops will be assumed by the district to be owned by the student.
